## SUMMARY

Results-driven Planning and Controls Manager with 18 years of experience delivering major programs across Egypt, Oman, and KSA. Specialized in governance frameworks, Stage Gate implementation, and advancing organizational maturity through P3M3. Combines strategic PMO leadership with deep expertise in project planning, controls, risk management, delay analysis, and EOT claims across infrastructure, airports, and large-scale developments. Enhanced capabilities through professional training in risk, Crisis Management, and Business Continuity, strengthening organizational resilience and readiness. Proficient in Primavera and Power BI, delivering advanced dashboards, predictive analytics, and transparent reporting that support decision-making, audit readiness, and stakeholder confidence. Recognized for structured leadership and driving performance in complex environments.

## EXPERIENCE

### Control-Planning, Risk and Reporting - Manager

10/2021 — Present

**PARSONS — Riyadh, KSA**

- Implemented governance processes ensuring compliance and transparency across multi-billion SAR portfolios.
- Enhanced document control and communication flows to support governance, Stage Gate compliance, and P3M3 maturity.
- Validated KPIs, risks, and documentation at each Stage Gate.
- Completed a full P3M3 cycle, advancing maturity from Level 2 to Level 3 through standardized templates and performance metrics.
- Directed planning, progress measurement, risk management, and project control activities to ensure effective governance.
- Established and directed guidelines for schedule reviews, analysis, approvals, and control, enhancing governance and project delivery reliability.
